To create FTP user for server:

- first check the disk space using by **df -h**
- cd path/dir name
- mkdir -m777 dirname
- adduser -s /sbin/nologin -d path of dir **user name**
- chmod -R 777 dirname
- vim /etc/vsftpd/chroot_list   (here you should be mension **user name**)
- passwd **user name**
